PROSPECTUS 2026 -27

Apple Tree *Celebrating 20 Years* International School

From a humble beginning with 7 students in 2006, Apple Tree International School is now celebrating 20 years of continuing success.

We thank all of the families that has trusted and continue to trust Apple Tree, helping us to build a school with a strong connection to the local community in Mirpur.

Throughout the years we have followed the same guiding principle: Quality education to affordable cost.

After only a few years Apple Tree received the credentials to become a Cambridge International School.

Apple Tree is one of the very few schools in the country being a registered Cambridge Primary school.

From the school year 2025-26 we introduced Cambridge AS and A Level.

- Apple Tree International School is a private school under Swedish Management, admitting students from Playgroup - Cambridge A Level.

- Apple Tree International School was established in 2006, has three campuses in Mirpur, and is registered with The Secondary and Higher Secondary Education Board.

- Apple Tree International School is a Cambridge International School under Cambridge Assessment International Education and a registered member of Cambridge Primary.

- The owner and principal Yam Bergstrand is a Swedish citizen.

Between 1970 and 2005 he worked as an actor, director, journalist, software developer and child counselor in Sweden.

In 1994 he was invited by Group Theatre Federation to conduct workshops for young actors in Dhaka through a grant from The Swedish Institute. During the visit he came to know the late playwright Selim Al Deen . He came back several times around 2000 to translate the stage play Hargaj by Selim Al Deen to Swedish.

We believe that one of the most important things with education is to fill students with enthusiasm for learning and studying. This is the significance of our school motto:

“An Independent Life of Learning”

Junior Campus

Playrooms

Classrooms

All classrooms have plenty of space for activities. In each preschool grade one room is focused on silent activities with children working in a circle. Another classroom has a loft and is used for more physical activities. The school day contains activity based learning and social training. One of the classrooms in Kindergarten is designed for more formal learning.

Mathematics

Mathematics is taught from practical touch-and-count approach in preschool to more complex strategy building in primary and secondary school. In preschool we develop students' number sense; counting, ordering, sorting, understanding the properties of shapes and to recognise simple patterns. They gradually learn to make models and to develop strategies for problem solving.

Cambridge Primary

Cambridge Primary is an education programme for learners aged 5 to 11 years. It develops learners' skills through the primary years in English, Mathematics and Science. It is offered by more than 1300 primary schools in over 110 countries worldwide.

Apple Tree is proud to be one of the very few schools in Bangladesh to be a registered Cambridge Primary School. This gives our teachers exclusive access to vast online resources from Cambridge.

Creative Writing

Through imagination and vocabulary building students start to write their own stories in our specially designed exercise books.

They may start any time in preschool when they feel ready. They present their stories in front of the class in the Author's Chair.

Cambridge Reading Adventures

From Kindergarten – Grade 5 Apple Tree engages students in Reading Adventures, a specially designed programme produced by Cambridge to improve reading skills. The programme contains a big variety of books and teachers' guide.

Extracurricular

- Art and Craft
- Dance
- Drama and Theatre

- Mothers' Club
- Music
- Sports

The Photography club visits the Botanical Garden

The Art and Craft club visits the National Zoo

Activity Clubs

- Debate and Public Speaking
- Programming and Robotics
- Photography and Multimedia

Senior Campus

Main Library

The main library holds fiction and non-fiction literature both in English and Bengali, reference books, dictionaries and daily newspapers creating rich resources of information for various classroom projects. It has workplaces for individual studies and facilities for group work and research.

Each school campus has a library with fiction and non-fiction literature both in English and Bengali. Libraries also have chess, puzzles and other games for silent play. From Grade 3 all students have Library Time on their routine where they will be introduced to different types of books and encouraged to explore books on their own.

Laboratories

Our Senior Campus has separate modern and scientifically equipped laboratories for Chemistry, Biology, Physics and Computer Science.

Camping

At the end of grade 9 our students go on a camping tour. Outdoor activities and a bonfire will help them bond and relax before the O Level examinations.

Study Tour

Every year Grade 6 and 7 students go on a Study Tour. It is both a time to enjoy and a regular class with an assignment outside the classroom.

Checkpoint Assessments

Cambridge Checkpoint assessments for learners after the final year of Cambridge Primary are available in English, Mathematics and Science.

The Checkpoint assessments are conducted at our Senior Campus and marked in the UK by Cambridge International to provide our school with an external international benchmark for learner performance. Each learner receives a statement of achievement after and a diagnostic feedback report, giving our school detailed information and parents extra trust through the feedback they receive.

At Apple Tree students sit for Primary Checkpoint in grade 6 and for Lower Secondary Checkpoint in Grade 7.

Admission

Apple Tree International School admits students from Playgroup to Cambridge A level

The academic year extends from July through June. The first semester runs from school start to winter vacation, the second from January to final examinations.
